

All Purpose Sanitiser Unfragranced

Health & Safety
Please refer to relevant MSDS

An all-purpose sanitiser based on natural fermentation extracts and mild, biodegradable surfactant. Kills bacteria to EN1276. Approved to EN14476 for enveloped viruses, including coronavirus 2019 n-CoV / SARS-CoV-2.

Don't forget
PPE

1

2

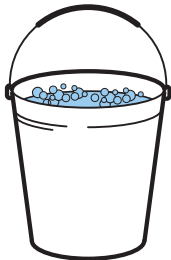

Use the Eco-Multi machine to dilute correct amount of product into a 750ml trigger spray.

3

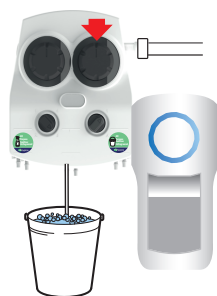

Spray surface, leave for the required contact time, (15 seconds for enveloped viruses, 30 seconds for bacteria) and wipe.**

1

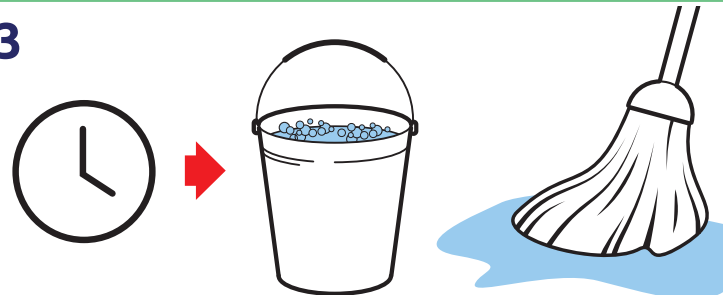

2

Use the Eco-Multi machine to dilute correct amount of product into a 5L bucket.

3

Mop surface, leave for the required contact time, (15 seconds for enveloped viruses, 30 seconds for bacteria). No rinsing necessary. Leave to air dry.**

Always use with cold water.
Hot water will kill biological actives

**please ensure surfaces are clean prior to sanitising
