

## Cleaner & Degreaser Sachets

Health & Safety  
Please refer to relevant MSDS

Don't forget  
**PPE**

Place 1 water soluble sachet into a trigger spray, add required amount of water, replace the top and shake the trigger spray until the sachet has dissolved.

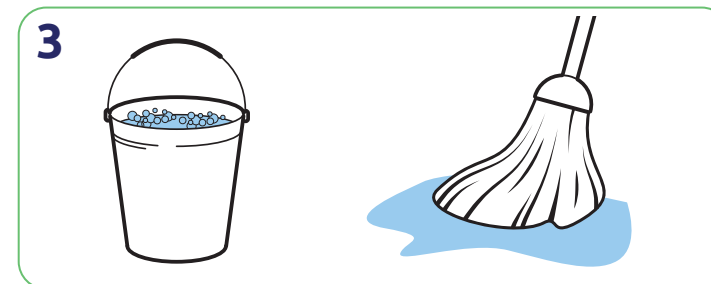

Spray and wipe with a cloth.

Always use with cold water.  
Hot water will kill biological actives.

Place 1 water soluble sachet into a 5L bucket of water and stir until the sachet has dissolved.

Mop surface. No need to rinse.
