

## Kitchen Sanitiser

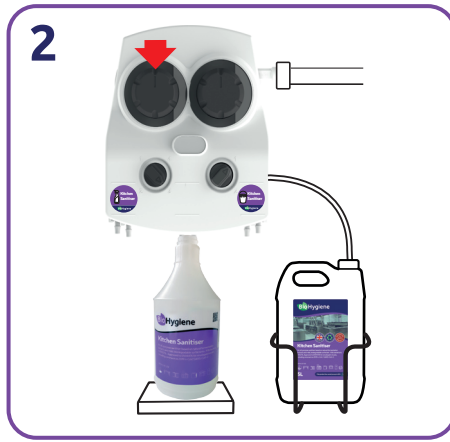

Health & Safety  
Please refer to relevant MSDS

An all-purpose sanitiser based on natural fermentation extracts and mild, biodegradable surfactant. Kills bacteria to EN1276. Approved to EN14476 for enveloped viruses, including coronavirus 2019 n-CoV / SARS-CoV-2.

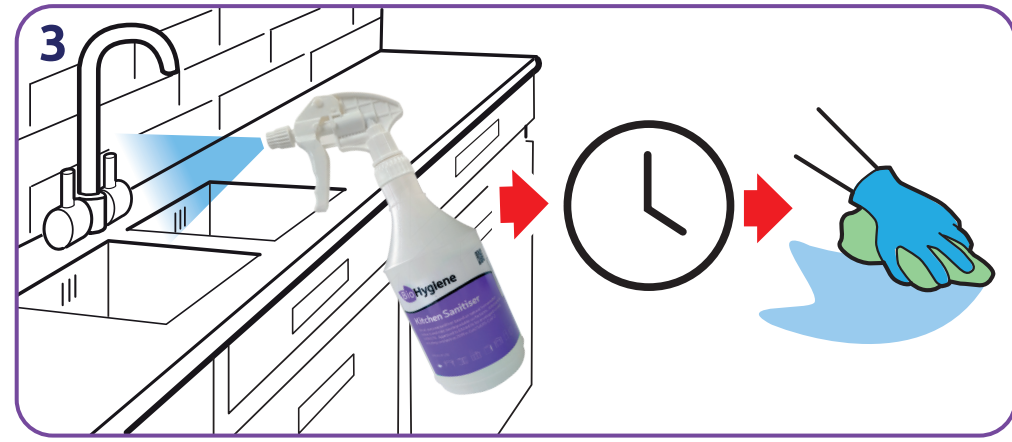

Don't forget

**PPE**

Use the Eco-Multi to dispense the correct dilution of Kitchen Sanitiser and water into a 750ml trigger bottle.

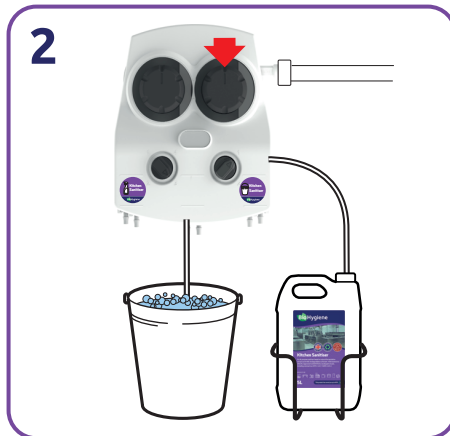

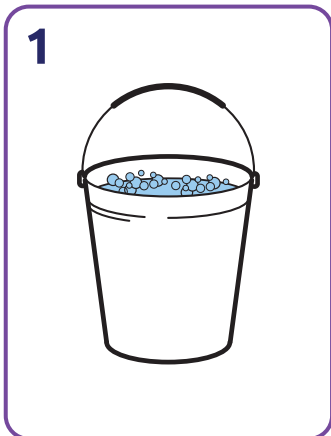

Spray surface, leave for the required contact time, (15 seconds for enveloped viruses, 30 seconds for bacteria) and wipe.\*\*

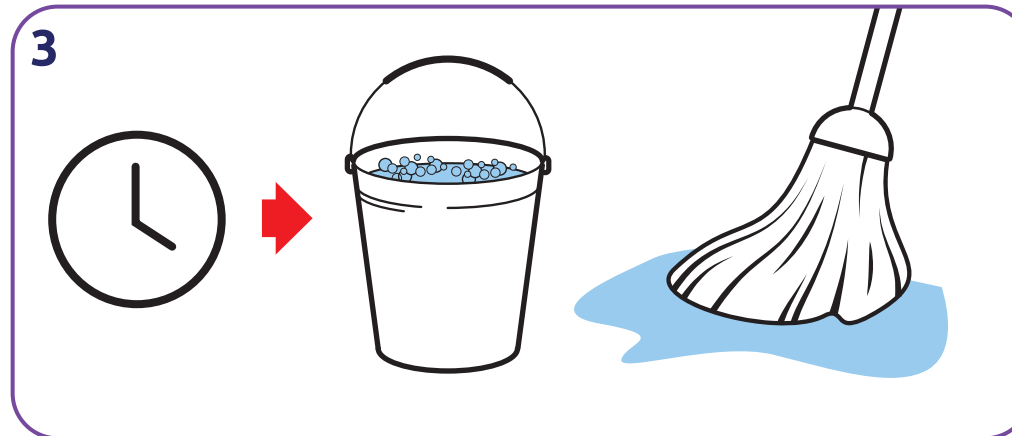

Always use with cold water. Hot water will kill biological actives.

\*\*please ensure surfaces are clean prior to sanitising

Use the Eco-Multi to dispense the correct dilution of Kitchen Sanitiser and water into a 5L mop bucket.

Mop surface, leave for the required contact time, (15 seconds for enveloped viruses, 30 seconds for bacteria). No rinsing necessary. Leave to air dry.\*\*
