

Laundry Destainer

A hydrogen peroxide based liquid laundry destainer for removing stubborn stains from most types of fabrics including colours (except nylon) in autodosed systems.

Cleaner

- Outstanding cleanliness on coloured and white fabrics
- Exceptional whiteness is achieved on white linen, kitchenware and white towels
- Improved laundry hygiene

Leaner

- Works in hard and soft water
- Non allergenic
- Preserves the life of fabrics compared to typical laundry bleaches.

Greener

- Reduced carbon footprint
- Not tested on animals
- VOC and Chlorine free

Laundry Destainer

User Instructions

For best results this product should be dosed into the main wash cycle at temperatures above 60°C. Care should be taken with blood stained items which require a pre-wash as contact with peroxide can 'set' the stains into the fabric making them more difficult to remove. Dose at a rate of 5-10mls per Kg of dry goods

Product Compatibility

An excellent destainer for all types of fabric (except nylon and wool), including coloureds. Works synergistically with our non-bio laundry detergent to produce very clean results on coloured and on white fabrics.

Safety & Storage

Full guidance on the handling and disposal of this product is provided in a separate Safety Data Sheet (SDS). Product is non-flammable so no requirement for secure, ventilated storage. Store at room temperature.
